

The Institution of Structural Engineers (Republic of Ireland Branch)
in association with the
Department of Civil, Structural & Environmental Engineering, Cork Institute of Technology.

Graduate Evening

**Presentations by recent Graduate Engineers on their experiences in
Civil, Structural & Environmental Engineering**

Summary

Recent graduates undertaking postgraduate research and graduates working across a range of engineering firms will give brief presentations sharing their experiences since graduating. The aim of the evening is to provide an insight for students and other members of the structural engineering fraternity into what it is like for Graduate Engineers working with Consultants today and show the opportunities that are available for research. It is intended that the evening will be relatively informal and there will be ample time for questions and discussion.

We encourage attendance by all members for what promises to be a rewarding and entertaining evening.

Presenters: Daniel Goulding (CIT)	– <i>Bord Gáis</i>
Alan Leen (UCC)	– <i>ARUP</i>
David Hodge (CIT)	– <i>CIT (Post Grad)</i>
James Browne (UCC)	– <i>UCC (Post Grad)</i>
Michael Minehane (CIT)	– <i>RPS</i>

6.30pm Wednesday 2nd November 2011, Room B190, Cork Institute of Technology
