

Building Control (Amendment) Regulations BC(A)R 2014

18 Months On

Presentation by: Cormac Meaney C.Eng (MIEI)

Cormac is a Director and Chartered Engineer in ORS. Cormac qualified as a Structural Engineer from DIT Bolton Street, and has a post graduate qualification in Fire Safety.

Since the introduction of S.I. 09 he has had a wide range of experience acting as an Assigned Certifier which includes projects such as Number One Ballsbridge, Bord Gais Energy Theatre, VHI Kilkenny and future projects such as Goethe Institute Dublin and Center Parcs Co. Longford.

Building Control Regulations provide for matters of procedure, administration and control for the purposes of securing the implementation of the requirements of the Building Regulations and of demonstrating how compliance with such requirements has been achieved in relation to the building or works concerned.

On the 1st March 2014, S.I. 09 (or BC(A)R) was introduced relating to the commencement and certification of construction works came into effect. This lecture is an insight into the progress of the industry 18 months on from implementation of these new regulations.
