

EVENING LECTURE

The Design and Construction of Mersey Gateway Bridge

The construction of a new cable stayed bridge across the Mersey in the UK is underway. This innovative cable stayed bridge carrying 6-lanes will open in Autumn 2017 after a 3-year construction period.

In this lecture, Mr. Paul Sanders, Chartered Engineer, Director COWI, will outline the challenges faced by the design team. The construction methodology and the construction work completed to date will also be presented.

6.30pm, Tuesday 24th January, 2017
Rochestown Park Hotel, Cork
